SHELVING BUILT TO LAST

Strong, Quiet, Secure

With 16 gauge side panels and 18 gauge shelving, Holman shelves are built to take a beating. With a number of strength enhancing features, these shelves can withstand power tools, heavy parts and just about anything you can throw at them. Our folded steel shelf lip is the strongest in the industry.

With gusseted leg supports and weld-nut attachments, we are so confident that every shelf comes with a structural warranty. We've designed our backing plates to be rattle free keeping the inside of your van quiet. And our strong mounting hardware you are worry free from our shelves ever breaking free.

- **Stronger** - Gusseted end panels, weld-nut attachments and thicker 16-gauge side panels
- **Quieter** - Improved back panels reduce noise
- **More secure** - Stronger mount brackets and angle braces
