

UNDER SHELF CONDUIT CARRIER

Part # : 40236

Under Shelf Conduit Carrier

PVC conduit carrier mounts below any Holman steel shelves. It is compatible with 6" PVC tubing (NOT included). This additional mount is used with 40236 when more than three Holman shelves are to be installed. One 40235 will need to be used for each additional shelf installed.

Features:

- Easily attaches to widely available 6" PVC pipe for lightweight and versatile conduit carrier.
- Mounts below Holman steel shelving.
- Low loading height reduces risk of injury.
- 40235 is needed when more than three Holman shelves are to be installed. One 40235 will need to be used for each additional shelf installed.
