

GM 135" WB FLOORING W/ MOUNTING TRACKS

Part # : 40475GR

GM 135" WB Flooring w/ Mounting Tracks

This flooring consists of 3-4 composite pieces connected by aluminum extrusion. 40475XX series floors have aluminum mounting tracks that are laid onto the floor of the van to use for mounting cargo van equipment to the floor. Installation of the rigid flooring prevents the need to drill into the floor of the van to mount Holman shelving.

Threshold Required: 40477G

Features:

- 10mm HolyPan composite flooring is impact resistant, non-slip, strong, and lightweight.
- Lightweight aluminum extrusion is placed in ideal locations for mounting partitions, shelving, and other Holman cargo van accessories using locking T-nuts.
- Installation is quick and easy.
- No drilling required.

Vehicle Fitment

- 1996+ Chevy Express
- 1996+ GMC Savana

Compatible Items

- All Holman Shelving
- All Holman Partitions
- 40477G
- 40475HW
